Impacting in action: Meet Bryan

Bryan is a middle school student in one of our Afterschool Programs. He has realized his potential because of a promise of perfect attendance to one of our YMCA staffers. Each day, our staff member would check in on Bryan’s progress and had this to say, “I am so profoundly proud of Bryan for finding an extrinsic motivation worthy of getting on top of his grades and staying out of trouble. He came to the realization himself to do the work to become academically successful. Bryan is a student who has shown that no matter what an individual might endure throughout their lives, no matter how far they might fall behind, no matter how hard life might beat them down - it is never too late to turn oneself around. Bryan did not give up. He is a student who has brought hope to the program and me personally. He has proven that the YMCA can make a difference.”
